

Audubon adventures

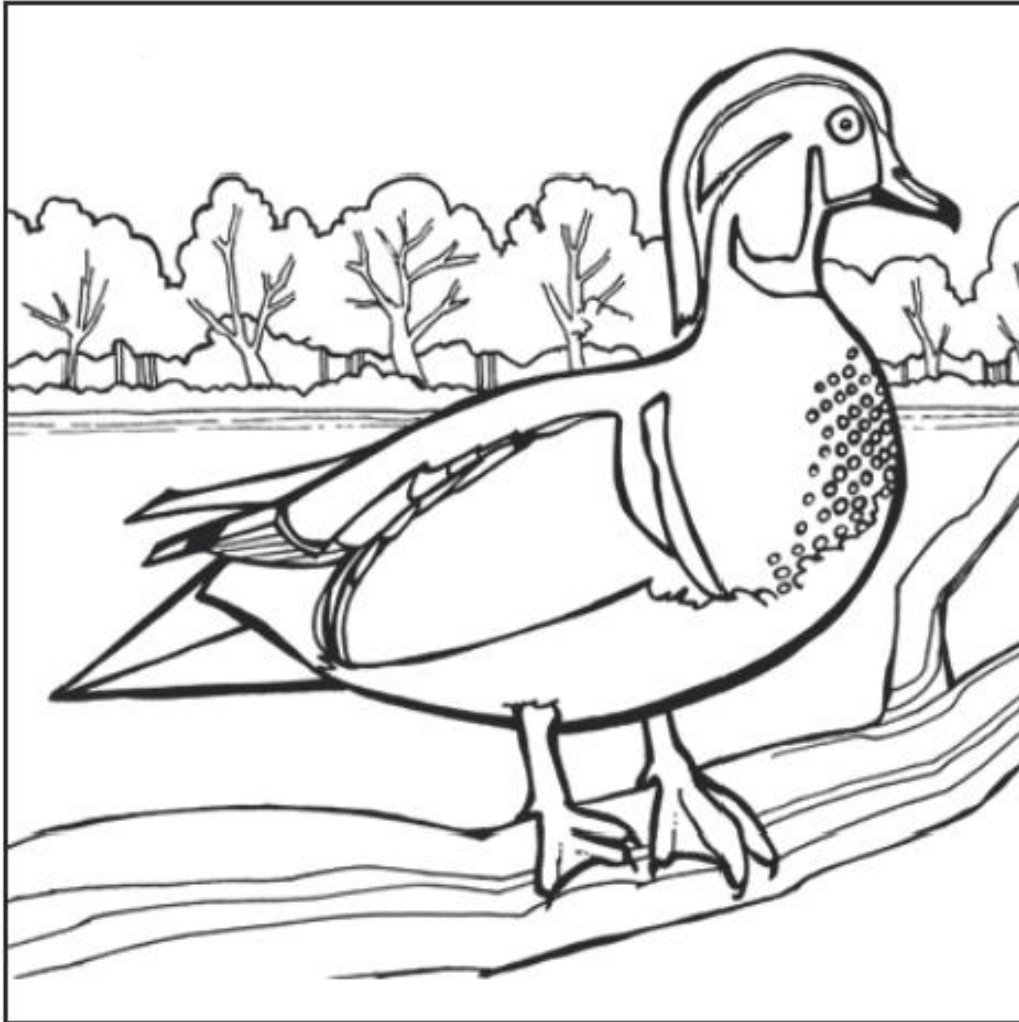

American Kestrel

This raptor is the smallest and most colorful member of the Falcon family in North America. It weighs about the same as 34 U.S. pennies!

Audubon adventures

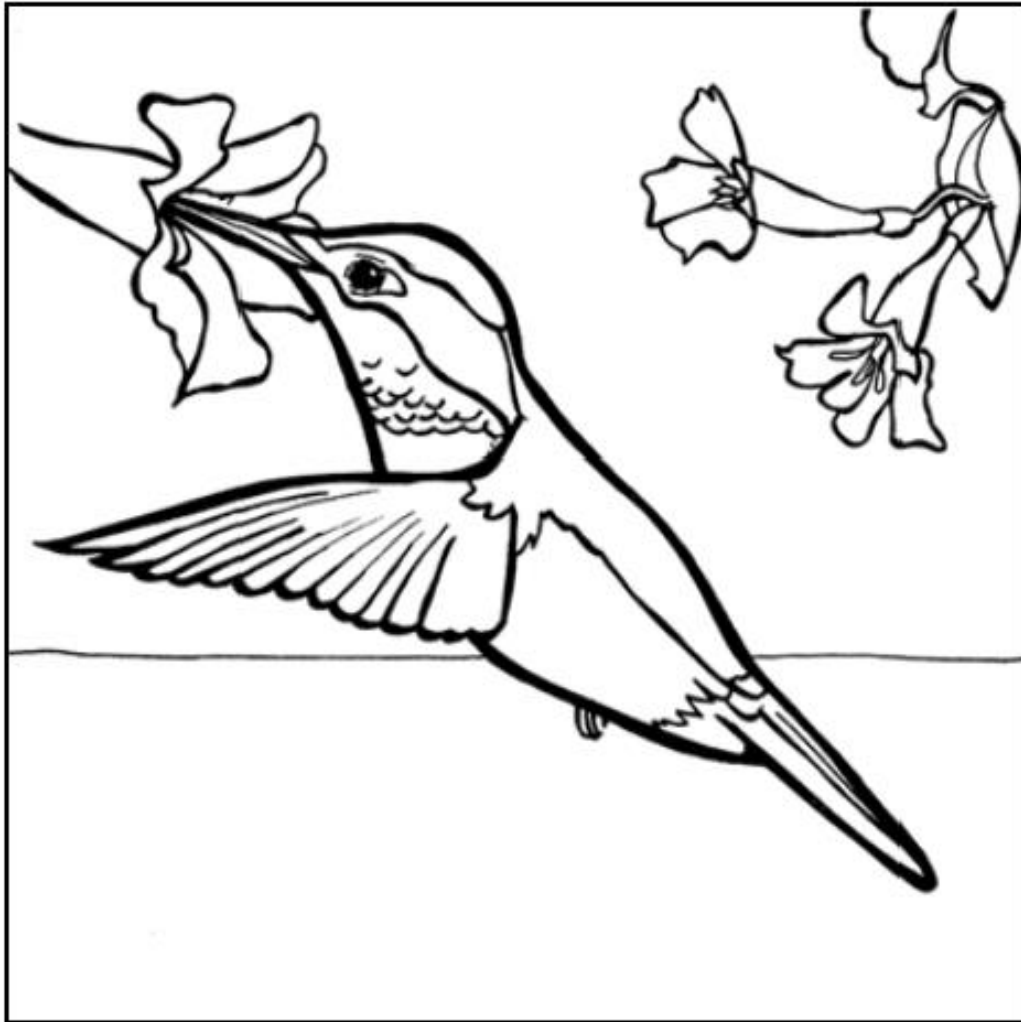

Wood Duck

Wood Ducks nest high up in tree cavities. They have sharp claws on their webbed feet to help them perch in trees!

Audubon
adventures

Allen's Hummingbird

This tiny bird slurps and sips nectar and tree sap and eats small spiders and insects!
